

Database Management System Lab

Name – N Aditya Sai

Register Number- RA1911030010075

Section - O2

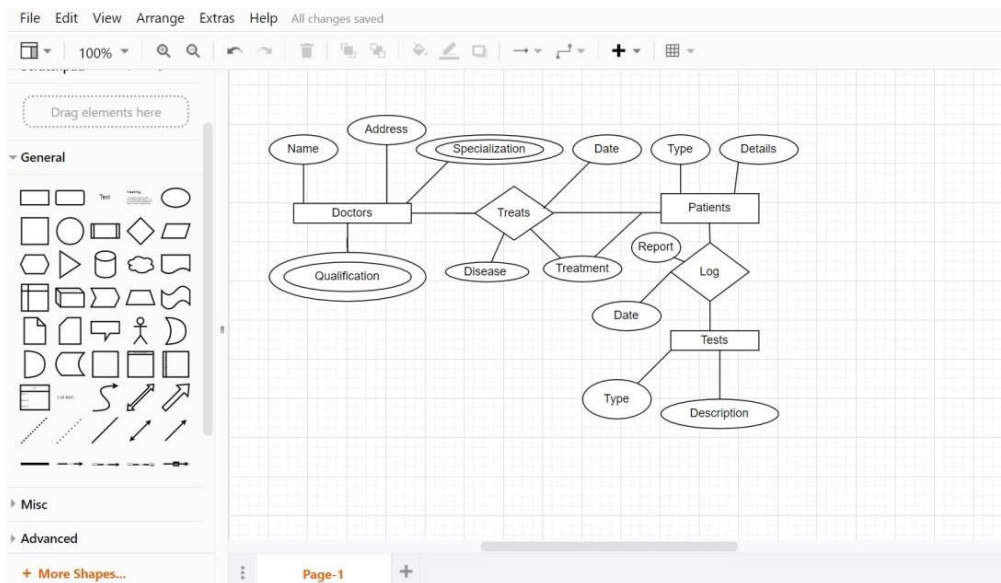

Experiment – 5

Aim: To create an Entity relationship diagram for hospital management system.

Tool used: Draw.io

Procedure: By knowing the tables and functionality requirements we are able to carefully construct the ER diagram for the use case. Since ERDs are of great use for designing a hospital management system, here we are going to walk you through the steps of designing an ER diagram for your hospital management system.

ER Diagram:

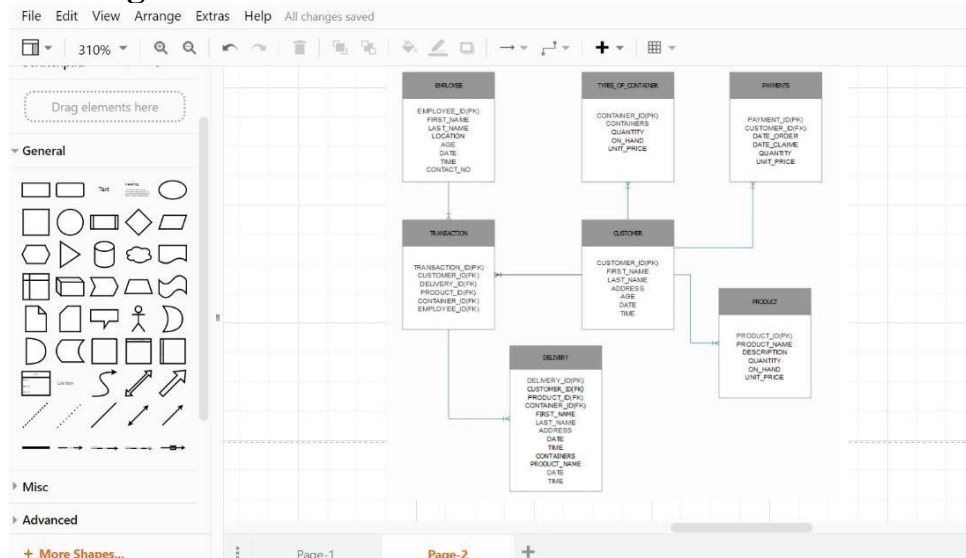

Result:

We have successfully constructed ER diagram for hospital management system.

Aim: To create an Entity relationship diagram for water refilling station system

Tool used: Draw.io

ER Diagram:

Result: Hence the er diagram for the water refilling station system is being constructed using the above-mentioned tool draw.io
